

MaGMa

Horse Truck Solarium

A horse solarium is an important factor in keeping your horse healthy and enhancing its performance. Regular use generates a marked improvement in performance and fertility.

Just as regular sleep is necessary for the recuperation of strength, regular exposure to sun is essential for stimulating blood circulation, for improving the blood-cell count and for activating metabolic processes. Our solariums keep your horse healthy and robust.

However, especially helpful are horse solariums in order to relax muscles and to stop sweaty horses from getting ill during the cold and wet season.

The COLUMBUS **MaGMa** Truck Solarium - Now you can take a solarium to every horse event you go.

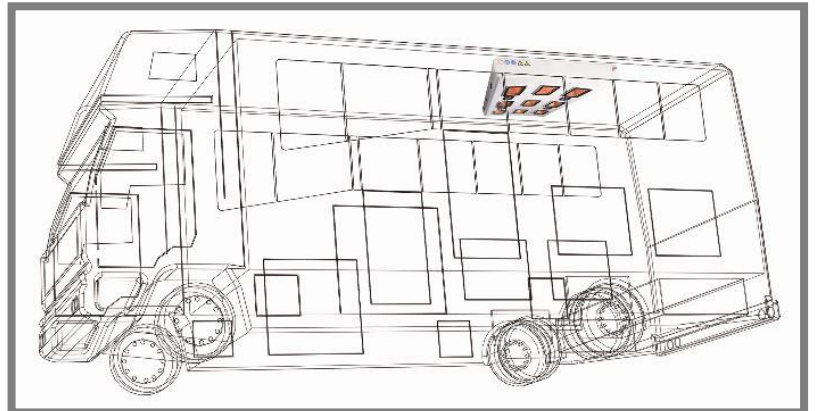

The **MaGMa** is compact and solidly build. By using special IR lamps this truck solarium is quite thin.

The IR lamps are fitted into the casing and protected by a toughend glass top.

The fans supply the lamps with cool air and blow the warmth onto the horses back.

The solarium's body has only rounded edges in order to minimize the chances of an injury.

Round and Thin

The solarium has been finished with rounded edges which reduces the chances of injury.

Due to its slight build it can be easily integrated into the ceiling of each horse truck / float.

Safe

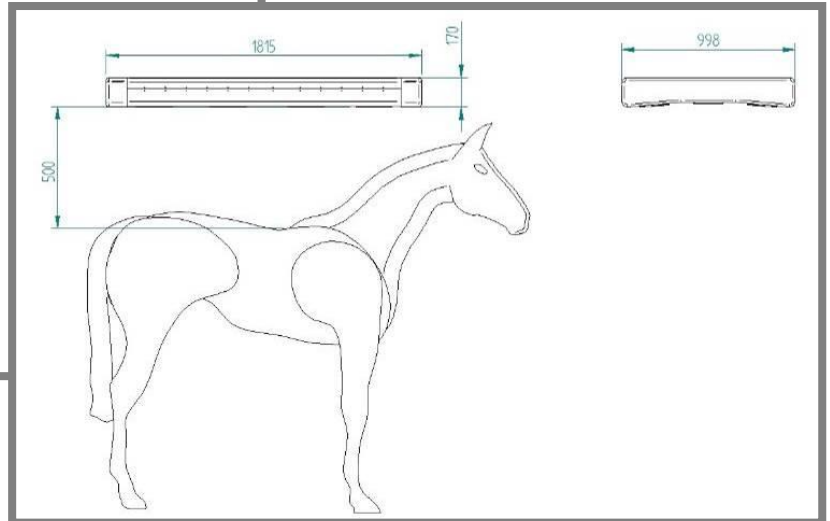

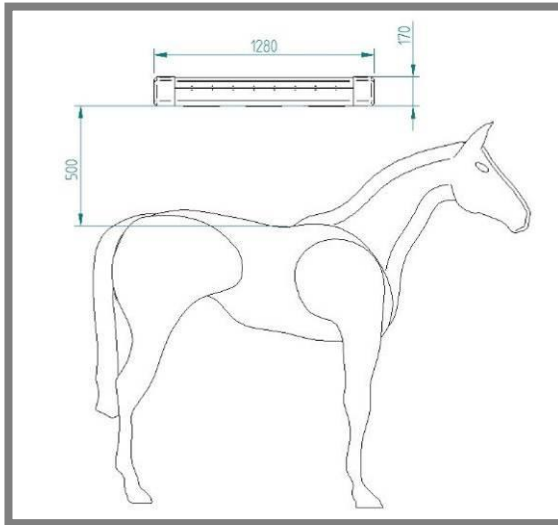

Safe due to the impact-resistant and flat IR lamps. The glass of the lamps is made from heat-resistant safety glass. The lamps are cooled by the fans.

Efficient

Efficient due to high performance halogen IR spots. Integrated fans cool down the solarium and blow the warmth onto the horses back.

Product Details Horse Solarium MaGMa / MaGMa XL

MaGMa

Technical Specifications

175 Watt Halogen IR-spots:	9 pcs
Total IR capacity:	1575 W
Fan capacity:	4 x 360 m³/h
Automatic engagement of fans at 30°C:	✓

Power requirements

Connection voltage:	1PH + N + PE 230 V 50 Hz
Circuit breaker:	10A
Total power consumption:	1775 W

Test marking

Quality seal:	CE
IP-value:	IP54

Materials and measurements

Body:	coated aluminium
Side caps:	heat-resistant plastic
Colour:	RAL9001 - crème white
Lamp fitting:	aluminium / porcelain
Glass:	heat- / impact-resistant safety glass
Measurements LxWxH:	128 x 98 x 17 cm
Weight:	25 kg

Equipment and extras:

Suspension set	✓
Cable and plug	✓
Control box	✓
Coin device	0

inclusive ✓ optional 0

MaGMa XL

Technical Specifications

175 Watt Halogen IR-spots:	12 pcs
Total IR capacity:	2100 W
Fan capacity:	6 x 540 m³/h
Automatic engagement of fans at 30°C:	✓

Power requirements

Connection voltage:	1PH + N + PE 230 V 50 Hz
Circuit breaker:	16A
Total power consumption:	2350 W

Test marking

Quality seal:	CE
IP-value:	IP54

Materials and measurements

Body:	coated aluminium
Side caps:	heat-resistant plastic
Colour:	RAL9001 - crème white
Lamp fitting:	aluminium / porcelain
Glass:	heat- / impact-resistant safety glass
Measurements LxWxH:	182 x 98 x 17 cm
Weight:	35 kg
